

# Welcome to the NCP Pro Virtual Learning Environment

Welcome to the Virtual Learning Environment (VLE) which accompanies your textbook, *Nutrition Care Process and Terminology: A Practical Approach*. The case studies in your textbook are just the starting point for your learning experience.

## Virtual Learning Environment Online Book Content for Ease of Access

The materials on the website are organized by case. Each case includes content from your book as follows:

### » Learning Outcomes

The Learning Outcomes summarize the objectives of each case study

### » Resources

Under the Resources tab you'll find important links to recommended readings which will help you to complete the case study activities

### » The Story

The Story is the important information obtained from your patient during their interview with the dietitian. It provides the critical social, anthropometric and medical details you'll require to facilitate your treatment plan. The Story also gives you the "Talk With" feature

### » Diet History

The patient's dietary intake organized and ready for analysis

### » Initial Activities

Activities to be completed using information from the patient's Story and Diet History. The Activities that reflect thinking in Nutrition Assessment, Initial Nutrition Diagnoses, Nutrition Prescription and Initial Intervention

### » Consultation Continues

A description of the dietitian's interaction with the patient that offers additional insights and allows the dietitian to refine their approach

### » More Activities

Activities for Nutrition Intervention and Nutrition Monitoring and Evaluation. These Activities involve documentation topics

### » References

The list of references used to write the chapter and case which will be useful as you study

## "Talk With" Feature

In addition to the basic components of each case, the VLE provides interactive components including *"Talk With"* features. These video clips provide you with the opportunity to hear responses to questions that have been posed to either the patients in the cases or other health care professionals discussing the cases.

## Blogs

Interesting blogs by Dr Esther Myers, a leader in the NCP field.

- » **Dr Esther Myers** blogs on each step of the NCP providing fascinating insights to help you achieve success at University and in practice

## Frequently Asked Questions
